

# Absolute Filtration™

## Reverse Osmosis

### High Flow Design

Delivers water up to 2 - 3 times faster than other systems, also comes with special brass and lead-free design.

### Pre-Sediment Filtration

Sediment reduction to 1 micron.

### Ultra Pre-Filtration

20,000 Gallon Capacity.

1/2 micron carbon filtration has the highest chemical adsorption rate of any similar carbon block filter. This saves membrane life.

### High-Flow Membrane (20-30 GPD)

Filters down to a molecular level and includes a limited 3 year warranty.

### Polishing Filter

Water passes through a specific coconut shell carbon blend to ensure great-tasting water. Water is filtered down to 10 microns with a 2,000 gallon capacity.

### Absolute-10™ Extended contact time! Over 26x More than Standard RO Units

Extends the time your water comes in contact with our 10K carbon filter for the maximum protection in residential R/O systems.

### Warranty

5 year limited system warranty

3 year R/O membrane limited warranty

### Features

- Unit comes standard with chrome faucet. All other faucets are sold separately as an upgrade. Choice of faucet color: Chrome, Bisque, White, Black, Brushed Nickel and Oil-Rubbed Bronze
- Upgrade to our high style faucet design: Chrome, Oil-Rubbed Bronze and Satin Nickel
- Service only once a year due to our incredible filtration system with a capacity up to **32,000 gallons** versus the competitor's 5,000 to 10,000 capacity

### 5-Stage

10-05-1315LF

**Module** 16" w x 15½" h x 7" d

**Tank** 15½" h x 11" dia.
